- bernatfont.dev

Full-stack web developer with experience across frontend and backend (JavaScript, React, Node.js/Express, PHP/Laravel, Java). I have contributed to building complete web applications and evolving corporate ERP systems, from interface design to business logic and database management. I'm looking to join a team where I can keep growing professionally and contribute to technically demanding projects.

PROFESSIONAL EXPERIENCE

Software Developer

DataLab

Oct 2025 – Present

Barcelona, Spain

- Development and implementation of new features in the corporate ERP using Java, JavaScript and GWT, tailoring it to each client's requirements.
- Refactoring and maintenance of existing modules, preserving code quality, consistency and maintainability.

Programmer

Eladiet

Oct 2023 – Jul 2024

Barcelona, Spain

- Development of Power Pages using HTML, CSS, JavaScript and Liquid to build interactive, responsive and accessible web interfaces.
- Implementation of new features in the ERP using C/AL on Microsoft Dynamics NAV, improving efficiency and reducing processing times.
